ENERGY TRANSITION

INTEGRATED EPC DELIVERY PLATFORM

Earthoc Energy Limited operates as a fully integrated Engineering, Procurement, and Construction (EPC) delivery platform, delivering complex infrastructure and industrial projects across Nigeria's oil & gas, power, and energy transition sectors.

We provide end-to-end project delivery spanning:

1. Project development
2. Engineering coordination and technical execution
3. Procurement and supply chain management
4. Construction, installation, and commissioning.

Earthoc's execution capability is strengthened through integration with Alcon Nigeria Limited, a Tier-1 EPC execution company, providing access to large-scale infrastructure, advanced engineering expertise, and proven delivery systems across major industrial and energy projects. This model ensures execution certainty, technical depth, and scalable project delivery.

MISSION, VISION & VALUES

OUR VISION

To be a leading EPC and energy solutions provider across Nigeria and beyond, recognized for excellence in project delivery and innovation.

OUR MISSION

To deliver high-quality engineering and infrastructure solutions through efficient project execution, prioritizing safety, quality, and client satisfaction.

CORE VALUES

- Safety & Compliance.
- Quality & Excellence.
- Integrity & Accountability.
- Innovation & Continuous Improvement.
- Teamwork & Collaboration.
- Customer Focus & Service.

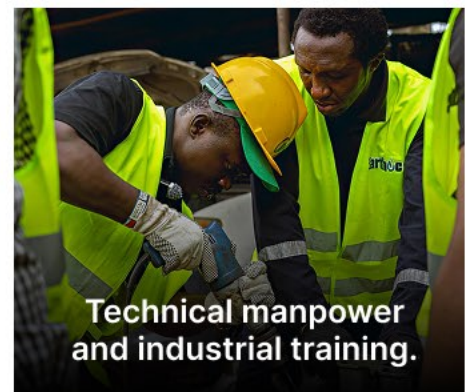

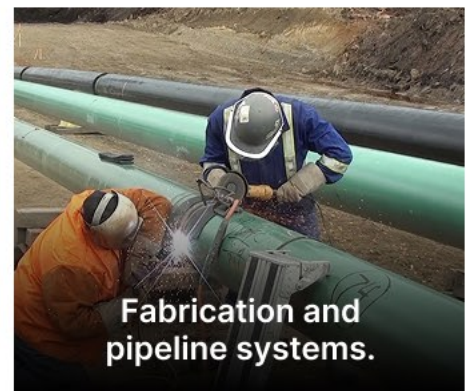

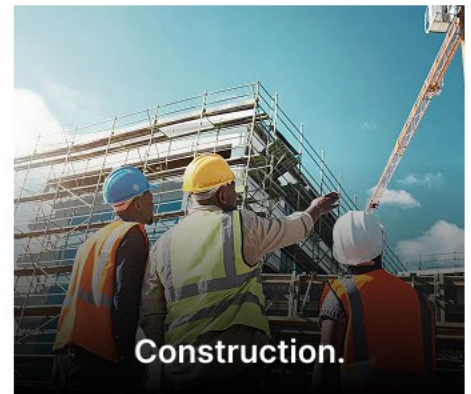

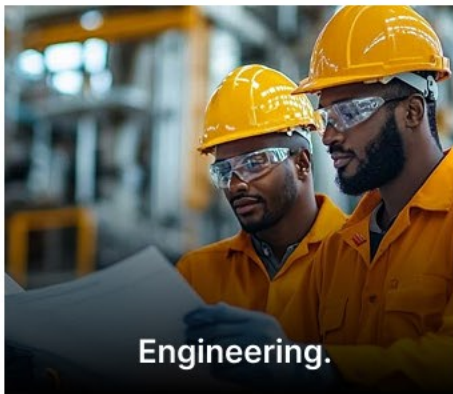

WHO WE ARE

EARTHOC ENERGY LIMITED

Earthoc Energy Limited is an indigenous energy and engineering company actively engaged in the development, execution, and delivery of infrastructure and industrial projects.

STRATEGIC ALLIANCE

Enhanced execution capability through an integrated EPC framework, powered by a strategic technical alliance with **Alcon Nigeria Limited** — providing access to large-scale engineering, fabrication and construction capacity.

SECTORS WE SERVE

INDUSTRY COVERAGE

Integrated EPC solutions tailored to each industry's unique requirements, delivered across five core sectors.

FIVE CORE SECTORS

Oil & Gas
Upstream · Midstream · Downstream

Power Generation & Distribution
Thermal · Gas · Hybrid Systems

Industrial Plants
Process & Manufacturing Facilities

Infrastructure Development
Civil & Structural Projects

Green Energy & Transition
CNG · LNG · Solar Systems

END-TO-END DELIVERY MODEL

LIFECYCLE ACCOUNTABILITY

A single platform accountable from opportunity through commissioning, with technical governance at every phase.

WHAT WE DELIVER

SERVICE CAPABILITIES & TECHNICAL SOLUTIONS

Engineering

Process, mechanical, civil, E&I design

Procurement

Vendor sourcing, logistics, materials supply

Construction

Civil, mechanical, E&I installation

Fabrication

Structural, pipelines, modular systems

Marine & Logistics

Offshore support, vessels, cargo handling

LNG/CNG & Energy

CNG/LNG systems, gas infrastructure

Industrial Services

Maintenance, valve systems, repair

Specialized Services

NDT, rope access, bolt tensioning

Energy & Environmental

Solar, waste mgmt, thermal desorption

OEM & TECHNICAL CAPABILITY

Earthoc operates with access to internationally recognized technical systems and OEM-supported solutions:

- Delivery of advanced valve, metering, and gas system technologies
- Integration of globally compliant equipment into EPC projects
- Execution of specialized industrial and process systems

OPERATIONAL ASSETS

INFRASTRUCTURE, PLANT & EQUIPMENT

Heavy industrial yards, jetty access and fabrication assets provide real capacity behind every commitment.

INDUSTRIAL FACILITIES

Fabrication Workshops

Marine Jetty & Logistics Base

Concrete Batching Plants

NDT Inspection Systems

Coating & Blasting Facilities

Valve Maintenance & Assembly

DELIVERY CAPACITY

WORKFORCE & FINANCIAL CAPACITY

WORKFORCE CAPACITY

250K+

MAN-HOURS / YEAR
Procurement & Technical

6.5M+

MAN-HOURS / YEAR
Construction Execution

4,500

PEAK PERSONNEL
Across Project Lifecycle

Multi-disciplinary expertise across Civil, Mechanical, Electrical, and Instrumentation disciplines, with workforce scalability between 2,500–4,500 personnel across the project lifecycle.

FINANCIAL & DELIVERY CAPACITY

Project Financing Access

Project financing support through established banking relationships.

Bonding & Guarantees

Ability to meet project bonding and performance guarantee requirements.

Scale Readiness

Financial readiness for large-scale EPC project execution.

PROJECT EXPERIENCE

COMPLETED PROJECTS (ALCON TRACK RECORD)

Project	Client	Location
Gas Processing Plant (200 MMSCFD)	Shell / SPDC	Niger Delta
Gas Processing Plant (240 MMSCFD)	Shell / SPDC	Niger Delta
NLNG Infrastructure Works	NLNG	Bonny Island
Azura 459MW Power Plant	Azura Power	Edo State
Flowstations & Pipeline Systems	NAOC / Shell	Various
Airport & Infrastructure Projects	Federal Govt.	Various

ONGOING PROJECTS

Project	Scope	Client	Location
Gas Plant Commissioning	Pre-comm & commissioning of gas processing facilities	IOC	Niger Delta
Field Logistics Base Dev.	Civil & structural works for field operations base	IOC	Rivers State
Compression Systems Install.	Mechanical & E&I installation of compression units	IOC	Delta State

📍 COMMUNITY & OPERATING ENVIRONMENT

Earthoc has strong experience operating across Nigeria's diverse and complex environments, including Niger Delta onshore and swamp terrains, offshore and coastal operations, and host community engagement and stakeholder coordination. The company maintains structured systems for managing community relations, ensuring smooth project execution.

THE CLEAR CHOICE

WHY EARTHOC ENERGY

A fully integrated EPC platform with the capability, experience and resources to deliver complex infrastructure and industrial projects across Nigeria.

Integrated EPC Execution

A single, accountable platform delivering engineering, procurement and construction across the full project lifecycle.

Project Structuring

Rigorous planning, engineering review and technical governance from FEED through commissioning.

Execution Backing

Heavy industrial yards, jetty access and fabrication assets provide real capacity behind every commitment.

Energy Transition

CNG, gas systems and renewable-ready infrastructure positioned for Nigeria's evolving energy mix.

Nigerian Content

Full local content compliance with deeply integrated Nigerian workforce, supply chains and communities.

Scalability

Workforce depth and asset base enable parallel execution across multiple concurrent project sites.

IN SUMMARY

Earthoc is positioned as a **reliable, bankable and execution-ready** EPC contractor for Nigeria's industrial future.

EST.

35+
years EPC
experience

STRATEGIC ADVANTAGE

Earthoc Energy Limited delivers a distinct competitive advantage through a fully integrated EPC platform that combines market access, project development capability, and proven execution strength.

01 Integrated EPC Execution Capacity

Strong execution capability across the full EPC lifecycle with large-scale engineering, fabrication, construction infrastructure, and multi-disciplinary technical manpower.

02 End-to-End Project Structuring

Seamless lifecycle from opportunity development through technical coordination, commercial structuring, EPC execution, and commissioning & delivery.

03 Proven Execution Backing

Strategic alliance with Alcon Nigeria Limited provides 30+ years of EPC experience, large-scale fabrication, and proven IOC & industrial track record.

04 Energy Transition Positioning

Actively positioned within CNG infrastructure, gas-based industrial systems, and clean energy and hybrid power solutions.

05 Nigerian Content Strength

High local workforce participation, full compliance with Nigerian Content requirements, and indigenous technical capacity development.

06 Flexible & Scalable Delivery

Rapid mobilization, scalable workforce deployment, and adaptability across project sizes and sectors.

CLIENT: Nigeria Liquefied Natural Gas Limited (NLNG)

Engineering, Procurement, Construction and Commissioning Works for Effluent Treatment Plants (ETP) Upgrade Project

SCOPE OF WORK:

INDUSTRIAL AREA

- A new ETP Unit with capacity to process 5,290m³/d
- Installation of an additional new Sump Pit and Pump of 2,350m³/d
- Refurbishment of the existing ETP Unit.
- Tie-in and capacity review of existing utilities for the new facilities
- Commissioning of the installed ETP Unit and Refurbished ETP

RESIDENTIAL AREA

- Upgrade RA Main Lifting Station (MLS) to process 7,200m³/d of effluent
- Demolition of existing Lifting Station 5 and construction of a new Lifting Station
- Design, Engineer and modify existing Lifting Station to accommodate two (2) Pumps

LOCATION: NLNG-Bonny Island, Rivers State

CLIENT: Delta State Government

Construction of ASABA/OKO-OBIOKPU ROAD Project

SCOPE OF WORK:

- Site Clearance and Earthworks
- Pavement and Road Surfacing
- Dredging Works
- Concrete and Drainage Works
- Landscaping

LOCATION: Asaba, Delta State

*CLIENT: ANOH Gas Processing
Company (AGPC)*

Shipping, Mechanical, Electrical & Instrumentation ("ME&I") Installation, Pre-Commissioning and Commissioning Support of ANOH Gas Plant Project

SCOPE OF WORK:

- Perform necessary logistics to collect free-issue project materials/equipment from various fabrication and supplier's yards in-country and overseas. Ship, custom clear, pay requisite shipping charges and duty (Besides the exempted) and other receipted charges and incidentals to clear materials and equipment from receiving port in Nigeria transport and deliver safely to Site in ASSA
- Procure, ship and clear bulk materials associated with fabrication of interconnecting piping, spools and structural supports including sub-assemblies
- Procure, ship and clear bulk materials associated with spools, mobilize and set up site with necessary tools, personnel, Camp, equipment, construction materials and Consumables, logistics and project management required to deliver all that is required within the Scope of Work.
- Prepare a lay down/storage area adequate to store and preserve all the equipment and its associated parts
- Manage, including preservation of all materials and equipment on site
- Install project materials on foundations provided by others
- Fabricate and Install Condensate & Produced Water Storage Tanks
- Install the firefighting system facility
- Install LPG Storage Bullets and Offloading Facility
- Carry out all the required inspections and tests on materials and installed accordingly
- Effect Mechanical, Electrical, Instrumentation Hook-up ANOH Gas Plant
- Pre-commission all Works and hand-over
- Liaise with OEMs and ensure commissioning exercise goes smoothly prior to hand-over
- Perform all WORKS on site safely and ensure no personnel is exposed to any hazards during installation

LOCATION: Assa North, Imo State
